

MERRY CHRISTMAS AND HAPPY HOLIDAYS!
December 25, 2013

Season's Greetings to all my Facebook friends. May we share joy with one another and all beings. We have passed the Winter Solstice and the Sun is once again heading north toward spring and summer, so I always rejoice at the return of the light. Every day it is getting brighter.

My family is gathering here and we will cook together and hang out. There are three kinds of pie and board games have been known to happen.

Here is a photo I took yesterday. [Nikon D800E, Zeiss Otus 55mm APO]
