

ATTENTION CONCERT POSTER FRIENDS  
January 9, 2011

By Michael Erlewine ([Michael@Erlewine.net](mailto:Michael@Erlewine.net))

This is going out to those friends of mine who collect or are interested in Rock & Roll concert posters and their history. As you may know I donated my archive of poster data, images, etc. to the Bentley Historical Library at the University of Michigan for research purposes and to protect the collection.

FYI I just uploaded 160 articles on rock posters and poster collecting, many illustrated, including scores of personal interviews with the poster artists. For those interested you can find and read them here:

My original web site is still available under new (and great management) at
